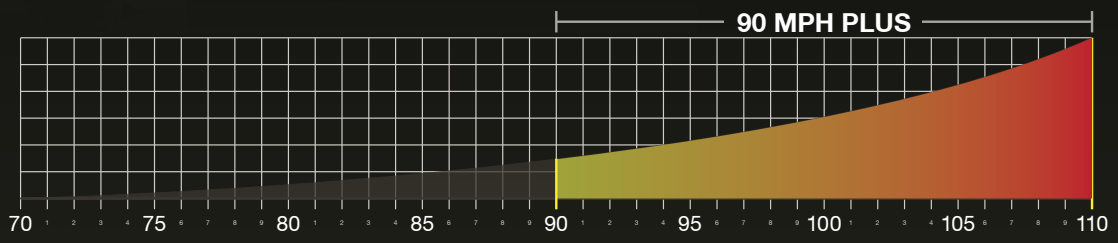
DIXON FIRE: PRO PERFORMANCE GOLF BALL

Dixon Fire is the multi-layer eco-friendly ball designed for the professional golfer who demands the highest level of performance in feel, spin, distance and durability.

- 318 tour-precision dimple pattern
- Elastodynamic™ recyclable cast urethane cover
- Energy intensifying mantle for maximum power
- High-intensity green core with ignite technology™

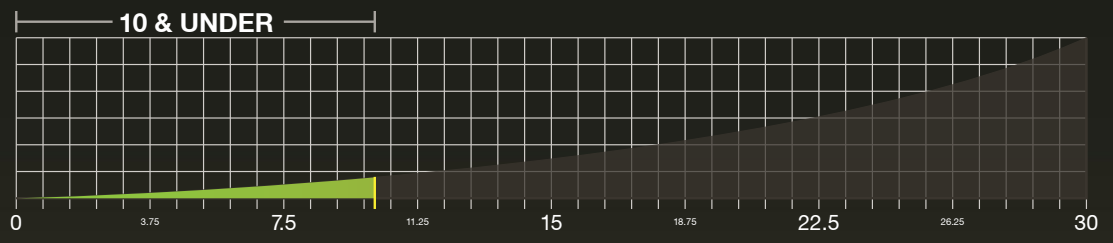
SWING SPEED (MPH)

The Dixon Fire golf ball is best suited for a golfer with a swing speed of 90 MPH or above.



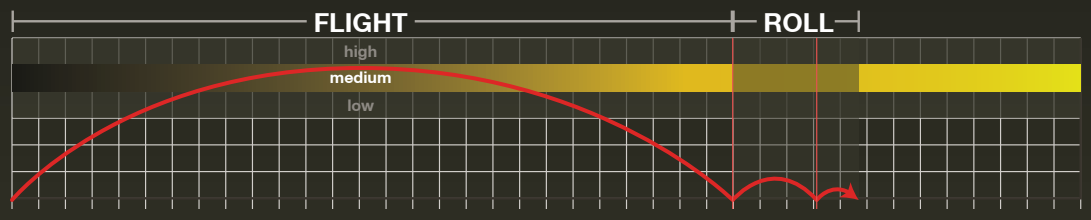
HANDICAP

The Dixon Fire golf ball is designed for a professional caliber golfer, if you are a single digit handicapper, then this is the ball for you.



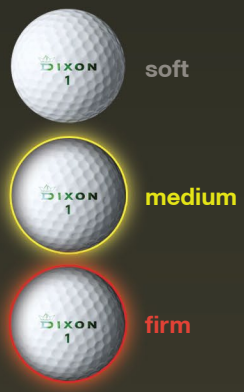
TRAJECTORY

The Dixon Fire golf ball has medium level trajectory which is suitable for most players.



FEEL (COMPRESSION)

The Dixon Fire golf ball delivers a firm/medium feel off the club face for excellent playability.



8 IRON SPIN

The Dixon Fire golf ball will allow the low handicap golfers more workability around the greens.
